Tactile and easy to use due to its ergonomic carry handle, the LifeSaver Cube can be handled and transported by children as young as 5 years old.

Its 5 litre storage capacity is ideally suited for families or small groups whilst on camping trips, days out, or for fresh water leisure activities when water can be filtered directly from lakes, rivers and ponds.

## LIFESAVER COMPLIANCE

Testing is based on a suitable adaption of NSF/ANSI P231.

These units are tested with two different types of water to challenge the filtration capability beyond the standard use. All figures quoted are taken from the stressed challenge phase of the test imitating sewage contaminated water.

\*After first use the product should be protected against freezing

\*\*Flow rates and service rating dependent on the composition, temperature and turbidity of the feed water

\*\*\*Tested by BCS laboratories issued 18/02/16 based on an adaption of NSF/ANSI P231 Protocol
